WORK EXPERIENCE

Gaine

Feb. 2026 – May 2026

Full-stack Software Development Engineer

San Luis Obispo, CA

- Architected end-to-end features, using Angular 21 for responsive UI and C# .NET 10 for robust backend services
- Streamlined deployments by utilizing automated CI/CD pipelines in Azure
- Enhanced application resilience by hardening protocols for HIPAA compliance, implementing comprehensive audit logging and secure session management

Handshake AI Fellowship

Dec. 2025 – Feb. 2026

AI Trainer – Multimodal Evaluation (Contract)

Remote

- Evaluated multimodal model outputs (text, visual, and audio) to improve LLM accuracy and reliability
- Developed high-quality domain-specific prompts to assess LLM reasoning, clarity, and factual consistency
- Provided structured feedback to refine model behavior across specialized technical tasks
- Ensured baseline scoring standards and adhered to quality metrics to maintain project compliance

sweep

Jan. 2025 – May 2025

Software Engineer Intern (Technical Lead)

Merced, CA

- Served as Technical Lead for a real-world client project, delivering a cross-platform mobile application that syncs files to a centralized server.
- Architected a secure RESTful API using **Flask** and integrated **Rclone** to enable file synchronization across cloud services like Google Drive and Dropbox.
- Built the front-end with **React Native**, collaborating with UI/UX designers to ensure intuitive interfaces and significantly optimizing Android app performance

PROJECTS

[ChopperBot](#)

- Engineered a Discord bot in Python for 100+ active users, hosting the fine-tuned LLM model and application services on a private homelab environment
- Implemented an optimized, complex memory system and backend logic to handle real-time API transactions and retain user context over multiple sessions using SQLite.
- Fully integrated a web search proxy alongside image generation and news summaries.

SKILLS

- **Languages:** C#, TypeScript, JavaScript, Python, Java, C++, SQL
- **Frameworks:** Angular, .NET 10, React, Node.js, Flask, FastAPI, React Native
- **Cloud/DevOps:** Azure, CI/CD, Docker, Firebase
- **Databases:** PostgreSQL, MySQL, SQLite
- **Tools/Agile:** Jira, Confluence, Git, Postman, Figma

EDUCATION

University of California, Merced

B.S. Computer Science and Engineering

Aug. 2025

Merced, CA
