Raul Plascencia

Full-Stack Software Engineer

rplasc.2025@gmail.com | 805.354.4466 | California | github.com/rplasc | raulplascencia.dev

PROFILE

Full-stack Software Engineer with experience in architecting scalable web applications and optimizing CI/CD pipelines in Azure. Background spans Angular/.NET enterprise development, cloud service integration, and agentic AI workflows.

WORK EXPERIENCE

Handshake AI Fellowship **Dec. 2025 – Present**
AI Trainer – Multimodal Evaluation (Contract) *Remote*

- Evaluated 100+ multimodal model outputs per week for reasoning accuracy, clarity, and factual consistency
- Authored domain-specific evaluation prompts adopted across the team, improving inter-rater scoring consistency
- Delivered structured feedback that informed model behavior refinement on specialized technical reasoning tasks
- Audited externally labelled data to maintain the quality-metric standards.

Gaine Technology **Feb. 2026 – May 2026**
Full-stack Software Development Engineer *San Luis Obispo, CA*

- Built responsive full-stack features using Angular 21 and C# .NET 10, shipping multiple user-facing components/modules across the product alongside Product Owners.
- Designed and implemented automated CI/CD pipelines in Azure, reducing deployment downtime by 10%.
- Implemented HIPAA-aligned security controls, including audit logging and secure session management, across the full stack.
- Built AI-agent proof-of-concepts to test new features, reducing development cycle by 25%.

sweep **Jan. 2025 – May 2025**
Software Engineer Intern (Technical Lead) *Merced, CA*

- Led a team of 5 engineers delivering a cross-platform mobile app for automated file synchronization.
- Architected a secure RESTful API in Flask, integrating Rclone to sync with Google Drive and Dropbox
- Built the React Native front end in collaboration with UI/UX designers, improving Android performance by 15%
- Delivered the project on schedule as technical lead, coordinating design, backend, and QA workstreams.

PROJECTS

- **Songwriting Tool -** Bilingual songwriting tool with real-time syllable tracking and rhyme suggestions made using NextJS, NestJS and Python. Link: github.com/rplasc/songwriting-assistant
- **Personality Matrix** - Personality quiz that assigns you a narrative archetype, styled as a classified dossier. Demo: personality-matrix.raulplascencia.dev
- **ChopperBot -** Self-hosted Discord assistant with persistent conversational memory written in Python. Link: github.com/rplasc/ChopperBot
- **Group Personality Quiz Platform –** A group personality platform that assigns each member a role and compares them to the rest of the group. Link: quiz.raulplascencia.dev

EDUCATION

University of California, Merced **Aug. 2025**
B.S. Computer Science and Engineering *Merced, CA*

TECHNICAL SKILLS

- **Languages:** C#, TypeScript, JavaScript, Python, Java, C++, SQL
- **Frameworks:** Angular, .NET 10, React, Node.js, Flask, FastAPI, React Native
- **Cloud/DevOps:** Azure, CI/CD, Docker, Firebase
- **Databases:** PostgreSQL, MySQL, SQLite, Prisma
- **AI Tools:** Claude Code, GitHub Copilot, OpenAI Codex
- **Project Management:** Jira, Confluence, Git, Postman, Figma
