Raul Plascencia

Full-Stack Software Engineer

rplasc.2025@gmail.com | 805.354.4466 | California | github.com/rplasc | raulplascencia.dev

PROFILE

Full-stack engineer who builds web apps with Angular and .NET and has set up CI/CD pipelines in Azure. I've also worked on cloud integrations and AI-agent workflows.

WORK EXPERIENCE

Handshake AI Fellowship **Dec. 2025 – Present**
AI Trainer, Multimodal Evaluation (Contract) *Remote*

- Review 100+ multimodal model outputs a week, checking reasoning clarity, and factual consistency.
- Wrote evaluation prompts for specialized domains that the team now uses, which made scoring more consistent between raters.
- Gave structured feedback that helped refine how the model handles technical reasoning tasks.
- Audit externally labelled data against our quality standards.

Gaine Technology **Feb. 2026 – May 2026**
Full-stack Software Development Engineer *San Luis Obispo, CA*

- Built full-stack features using Angular 21 and C# .NET 10 with the Product Owners and shipped several user-facing components and modules.
- Built automated CI/CD pipelines in Azure and cut deployment downtime by 10%.
- Added HIPAA-aligned security controls across the stack, including audit logging and secure session management.
- Prototyped new features with AI agents, which shortened the development cycle by 25%.

Sweep **Jan. 2025 – May 2025**
Software Engineer Intern (Technical Lead) *Merced, CA*

- Led five engineers on a cross-platform mobile app that syncs files automatically.
- Designed a secure REST API in Flask that uses Rclone to sync with Google Drive and Dropbox.
- Built the React Native front end with the UI/UX designers and improved Android performance by 15%.
- Delivered on schedule, coordinating design, backend, and QA.

PROJECTS

- **Songwriting Tool:** A bilingual songwriting tool that tracks syllables and suggests rhymes as you type. Built with Next.js, NestJS, and Python.. Link: github.com/rplasc/songwriting-assistant
- **Personality Matrix:** A personality quiz that gives you a narrative archetype, styled as a classified dossier. Demo: personality-matrix.raulplascencia.dev
- **MixLens:** An application for analyzing music mixes and masters built with Rust and Angular (Tauri). Includes optional AI assistance for specific suggestions. Link: github.com/rplasc/mixlens
- **Group Personality Quiz Platform:** Assigns each group member a role and compares them with the rest of the group. Link: quiz.raulplascencia.dev

EDUCATION

University of California, Merced **Aug. 2025**
B.S. Computer Science and Engineering *Merced, CA*

TECHNICAL SKILLS

- **Languages:** C#, TypeScript, JavaScript, Python, Java, C++, Rust, SQL
- **Frameworks:** Angular, .NET 10, React, Node.js, Flask, FastAPI, React Native
- **Cloud/DevOps:** Azure, CI/CD, Docker, Firebase
- **Databases:** PostgreSQL, MySQL, SQLite, Prisma
- **AI Tools:** Claude Code, GitHub Copilot, OpenAI Codex
- **Project Management:** Jira, Confluence, Git, Postman, Figma
